Dear Mr. MacLeod:

TASKING LETTER - FALL 1997 ENVIRONMENTAL MISSION

This is to provide you with the tasking for the DOE's Fall 1997 environmental mission to Bikini from October 29-Nov 19, 1997. It is to be conducted for DOE by Lawrence Livermore National Laboratory (LLNL).

1. Billeting/Lodging - As requested by LLNL on 09/12/97 to DOE and BN.
2. Personnel - LLNL team will consist of William Robison (Party Chief), Marshall Stuart, Henry Jones, Carol Stoker, Earl Stone, and Leo Migvar. LLNL requests BN's temporary hire of Mr. Leo Migvar as mission agriculturalist from 10/27/97-11/19/97. In addition, it requests contractor's hire of six Marshallese field workers to support the mission. Even though Dr. Robison has suggested specific workers by name, BN is authorized to supply said workers from its own lists of local employees. DOE also requires the presence of BN support staff to provide for camp operations (including meal preparation) and equipment repair, etc. BN will also ensure its EMT specialist is on hand for the mission.
3. Ground transportation - As noted in the 09/12/97 letter.
4. Sea Transportation - Charter of LCU 2000 from USAKA to sail two round trips to Bikini in support of the mission, per LLNL letter of 09/12/97. Please ensure the two freezer vans and five tri-wall containers are aboard the vessel.
5. Air Transportation - Reservations and tickets on regular schedule flights to Bikini for mission members, plus AMI charter flights as required for back up.
6. Equipment & Supplies - As noted in the 09/12/97 letter.
7. Community Notification - Bikini Mayor, Senator, Counsellor, and Trust Fund Officer will be notified of the mission through receipt of Operations Plan 98-2.

8. DOE Visitors - Support of two DOE personnel observing the scientific program. Please ensure visitors are confirmed on airline flights, and provide for their subsistence and quarters at Bikini from 11/05-12, 1997.
